Works with  
**Apple Find My**

## Locate your item:

If the watch isn't nearby, the Find My app uses the global Find My network of devices to locate it. Nearby devices securely send its location to iCloud, viewable in the app. This process is anonymous and encrypted to ensure privacy.

## Find the Watch:

Open the Find My app, tap the Items tab, then tap your item. Click Play Sound on the app. The watch will beep so you can find it easily.

## FIND MY ON/OFF BUTTON

### 1. Turn ON Find My function:

### 2. Check Find My function status:

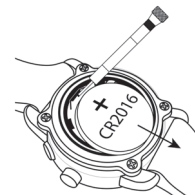

### 3. RESET Find My function :

### 4. Turn OFF Find My function :

## SPECIAL NOTE

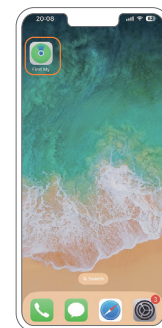

The Find My function operates independently of the analog watch. The watch is powered by two separate batteries: One for the watch itself and another for the Find My function, which lasts up to 6 months after being turned on. For instructions on replacing the battery for Find My function, please refer to the user manual included in the packaging. An extra battery and the necessary tool are also provided.

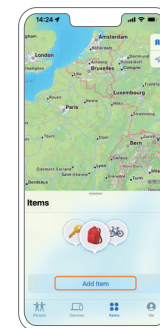

## QUICK GUIDE

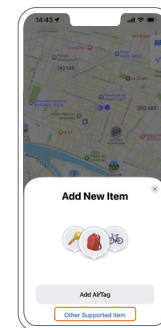

Hold the Find My button for 5 seconds till hearing the sound to turn the Find My function ON.

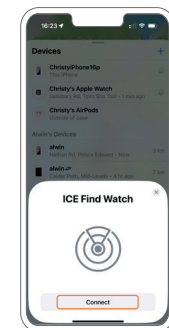

Open the « Find My» APP.

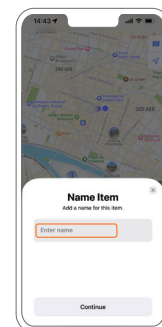

Tap «Add Item».

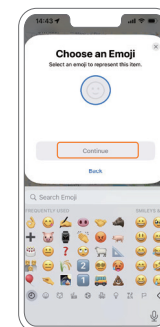

Tap «Other Supported Item».

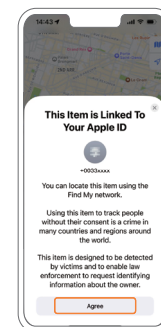

Search for ICE Find Watch, tap Connect.

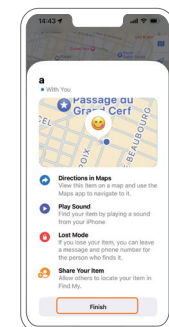

Fill in the item name and click continue.

Select an emoji for the item and click Continue.

Fill in requested info and agree this Item is Linked To Your Apple ID.

Tap Finish.
